LUXURY CONVERSION VANS TO FIT YOUR PLEASURE

The Waldoch conversion van has changed dramatically over the years. Back in the 70's a disco ball, green shag carpet and some stained plywood finished a clean and quality conversion. Today wood grain is out and high quality is in, with French stitched ultra-leather, plush interior, vinyl wood flooring, multi-color LED lighting, and fold down TV screens larger than are in some homes. Our vans have a polished exterior with unique graphics, paint to match running boards. We remove every black textured plastic piece and paint it to compliment the overall clean and elegant look. Our top of the line Galaxy Van package features color keyed side moldings, bumper insert fog lights and all trim pieces painted for a polished and elegant look.

Premium seating features leather fully adjustable captain's chairs with added comfort like power lumbar power recline and heat for lasting comfort. A fully automatic rear bench that reclines to a bed is a great feature for those impromptu rest stops on a long road trip. At each passenger seat enjoy all the comforts and conveniences you would expect from a Waldoch van like USB charging ports, individual passenger lighting and climate control venting. Close all the shades and use the LED mood lighting to enhance the cinema experience provided by an LCD display and surround sound TV that flips down out of the headliner 32" large and LED 1080P screen.
